

# **James and Esther King Biomedical Research Program**

**Announcement of Funding Opportunity and Call for Applications**

**Spring FY 2013-2014**

**ADDENDUM: Request for Letter of Intent**

## **Request for Letter of Intent**

Although a letter of intent is not required, is not binding, and does not enter into the review of a subsequent application, the information it contains allows Department of Health staff to estimate the potential review workload and plan for the review.

By April 30, 2014 prospective applicants are asked to submit a letter of intent that includes the following information:

- Descriptive title of proposed research
- Name, address, and telephone number of the project director or principal investigator
- Names of other research personnel
- Collaborating institutions, if any

The Letter of Intent should be sent to:
